Season 2022 - Week 38

### Notes:

**5 August 2021:** Week 27 to 29 data updated due to a transmission failure in EDI files. This issue has been resolved and data updated retrospectively.

Vessel delays due to port congestion caused shifts in sea freight volumes in week 28 to 32.

**17 September 2021:** Mass and Cumulative Summary columns swapped on page 1 of this report as per request.

Week 33 to 36 data adjusted according to exporter feedback
